## APPROVED CONTRACTOR DETAILS

Proposed construction to be conducted by: ..... Licence No: .....

Contractor contact details: .....

## ***Important Notes:***

The following substances are prohibited from being discharged into the sewerage system:

- Organochlorine weedicides, fungicides, pesticides, herbicides and substances of a similar nature and/or wastes arising from the preparation of these substances;
- Organophosphorous pesticides and/or waste arising from the preparation of these substances;
- Any substances liable to produce noxious or poisonous vapours in the sewerage system;
- Organic solvents and mineral oil;
- Any flammable or explosive substances;
- Discharges from 'Bulk Fuel Depots';
- Chromate from cooling towers;
- Natural or synthetic resins, plastic monomers, synthetic adhesives, rubber and plastic emulsions;
- Rain, surface, seepage or subsoil water, unless specifically permitted;
- Solid matter;
- Any substance assessed as not suitable to be discharged into the sewerage system;
- Waste liquids that contain pollutants at concentrations that inhibit the sewage treatment process – refer *Guidelines for Sewerage Systems: Acceptance of Trade Waste (Industrial Waste)* (ARMCANZ/ANZECC, 1994); and
- Any other substances listed in a relevant Regulation (see Council for further information if you are unsure).
