

Gunnedah Shire Council Developer Contribution Fee Listing 2023/24

ADOPTED: 21 JUNE 2023 | RESOLUTION: 3.6/23

Gunnedah
Shire Council
Open New Horizons

Developer Contribution and Servicing Plans

Contribution Plans and Servicing Plans are a means of sharing the costs of providing the community with the infrastructure that satisfies its economic and social needs.

The *Environmental Planning and Assessment Act 1979* and *Local Government Act 1993* provides NSW councils with a formal legal framework for levying developers for the provision of infrastructure, services and amenities where the development increases demand upon Council's services and facilities.

These contributions are designed to ensure that existing ratepayers are not required to meet the cost of providing for new roads, community centres, libraries, open space, and recreation facilities. This need arises from incoming populations occupying new residential developments.

The following Contribution Plans and Servicing Plans are in place at Gunnedah Shire Council and the contribution payable is indexed in accordance with the respective plan:

- Gunnedah Shire Council Section 64 Developer Services Plan – Stormwater – April 2013
- Gunnedah Shire Council Section 64 Developer Servicing Plan – Sewerage – December 2011 (amended July 2014)
- Gunnedah Shire Council Section 64 Development Servicing Plan – Water Supply – June 2016
- Gunnedah Shire Council Section 64 Development Servicing Plan – Water Supply and Sewerage – August 2020
- Gunnedah Shire Council Section 94 Contributions Plan – Extractive Industries – November 2013
- Gunnedah Shire Council Section 94A Contributions Plan – January 2013
