RURAL RESIDENTIAL WATER SUPPLY AGREEMENT

I hereby agree to the following Terms and Conditions of connection to the above water supply in my area: -

- i. Payment of connection fees prior to work being carried out.
- ii. The water will be connected to my property via a minimum 20mm service into a minimum 10,000-litre storage tank. The water will pass through a float valve and air gap, in accordance with the requirement of AS3500.
- iii. The water pressure and continuity of supply cannot be guaranteed by council.
- iv. The average flow of water during the day will be 5,000 litres. Council may restrict the flow to achieve this.
- v. The storage tank will be located as agreed with Council.
- vi. No connections to the service are permitted between the meter and the storage tank air gap.
- vii. Council will carry out an inspection of the plumbing work associated with the connection before the water is turned on.
- viii. I will pay water rates and charges at the applicable rates.
